

Property Appraisal Report

Prepared: June 01, 2026 | Query Index: 4730 | Confidence: High

Estimated Value	Actual Price	Delta	Model Used
\$716,554	\$644,900	+\$71,654	Multi-Model Prediction

Executive Summary

The estimated value for the property is \$716,554 based on a multi-model prediction which includes Linear Regression, Ridge Regression, Random Forest, and XGBoost Local. The actual price is \$644,900.

Comparable Sales

#	Price	Location (km)	Influence	Reason
C1	\$838,900	4.47	26.2%	Property with similar square footage, bedrooms, and bathrooms that is slightly larger and located further away.
C2	\$889,800	0.97	20.4%	Property with similar square footage and bedrooms but slightly larger acreage and located closer to the subject property.
C3	\$529,900	3.82	18.9%	Property with similar square footage and bedrooms that is slightly smaller in acreage and located further away.
C4	\$539,900	5.63	18.0%	Property with similar square footage and bedrooms that is larger in acreage but located further away.
C5	\$609,900	1.09	16.6%	Property with similar square footage and bedrooms that is located closer to the subject property but larger in acreage.

Comp Analysis

Price Drivers

Positive Square Footage • Garage • Parking • Fireplace	Negative None
---	------------------

Model Outputs

Model	Prediction
-------	------------

Global	\$716,554
Linear Regression	\$374,761
Ridge Regression	\$674,649
Random Forest	\$685,438
XGBoost Local	\$536,250

Model Selection Rationale

The chosen model was a weighted average of the four models with more weight given to models that have a higher accuracy and agreement with other models.

Valuation Logic

The valuation was determined by training multiple machine learning models on comparable properties and their features. The final estimated value is a weighted average of the predictions from each model, with more weight given to models that have a higher accuracy and agreement with other models.

Confidence Breakdown

Comp Quality	Model Agreement	Overall Risk
High	High	Low

Final Takeaway

The estimated value for the property is \$716,554 with a high level of confidence based on multiple machine learning models. The actual price is \$644,900.
