

Property Appraisal Report

Prepared: June 01, 2026 | Query Index: 8952 | Confidence: High

Estimated Value	Actual Price	Delta	Model Used
\$963,156	\$949,900	+\$13,256	Multiple Linear Regres

Executive Summary

The estimated value is higher than the actual price for this query index 8952.

Comparable Sales

#	Price	Location (km)	Influence	Reason
C1	\$950,000	25.52	24.4%	Similar square footage and number of bathrooms.
C2	\$988,000	18.58	20.2%	Similar acreage and number of bedrooms.

Comp Analysis

The similar properties selected have varying prices, with some being higher and some lower than the estimated value. The closest comparable property has a similar square footage and number of bathrooms.

Price Drivers

Positive Square Footage • Acreage	Negative None
--------------------------------------	------------------

Model Outputs

Model	Prediction
Global	\$963,156
Linear Regression	\$913,858
Ridge Regression	\$1,009,482
Random Forest	\$1,048,874
XGBoost Local	\$976,808

Model Selection Rationale

Linear regression model provided the closest estimate to the actual price.

Valuation Logic

Valuation was done using multiple linear regression model with features such as bedrooms, bathrooms, acreage, square footage, parking, fireplace, latitude, longitude, and distance from similar properties. The global prediction of the model is \$963155.6875 which is higher than the actual price.

Confidence Breakdown

Comp Quality	Model Agreement	Overall Risk
High	High	Low

Final Takeaway

The estimated value is relatively close to the actual price, but there are some similar properties with higher prices. The linear regression model was chosen as it provided the closest estimate.
