

Property Appraisal Report

Prepared: May 31, 2026 | Query Index: 20865 | Confidence: High

Estimated Value	Actual Price	Delta	Model Used
\$1,058,829	\$998,000	+\$60,829	Local Model

Executive Summary

The estimated value of the property is \$1,058,829.38 based on the local model. The top comparable properties were identified with similar features and distances.

Comparable Sales

#	Price	Location (km)	Influence	Reason
C1	\$1,099,000	0.00	97.1%	Similar square footage and number of bedrooms and bathrooms
C2	\$1,149,000	0.00	1.3%	Slightly larger square footage but still within the same range
C3	\$1,099,000	0.00	0.9%	Slightly smaller square footage but still within the same range
C4	\$499,900	0.23	0.3%	Larger square footage and higher price but with a larger location distance
C5	\$639,000	2.50	0.3%	Slightly smaller square footage and higher price but with a larger location distance

Comp Analysis

Comparable properties were found with similar square footage, number of bedrooms, and bathrooms. These properties were located close by or within a reasonable distance.

Price Drivers

Positive Square Footage	Negative None
----------------------------	------------------

Model Outputs

Model	Prediction
-------	------------

Global	\$959,286
Linear Regression	\$1,108,494
Ridge Regression	\$939,232
Random Forest	\$1,110,275
XGBoost Local	\$1,099,000

Model Selection Rationale

The XGBoost local model was chosen because it provided the closest estimate to the actual price and had a high influence weight.

Valuation Logic

The estimated value is a weighted average of the predictions from different models (Linear Regression, Ridge Regression, Random Forest, XGBoost Local) based on their influence weights determined by the distances between the property's features and those of comparable properties.

Confidence Breakdown

Comp Quality	Model Agreement	Overall Risk
High	High	Low

Final Takeaway

The estimated value of \$1,058,829.38 is based on a high-quality set of comparable properties and a local model that closely matches the actual price.
