

Property Appraisal Report

Prepared: May 31, 2026 | Query Index: 395 | Confidence: High

Estimated Value	Actual Price	Delta	Model Used
\$1,998,848	\$1,999,000	-\$151	Multiple Regression, Ridge Reg

Executive Summary

The estimated value of the property is \$1,998,848.25. The model used for this valuation is a combination of multiple regression models including Linear Regression, Ridge Regression, Random Forest, and XGBoost Local.

Comparable Sales

#	Price	Location (km)	Influence	Reason
C1	\$2,298,000	7.92	28.0%	This comparable property has similar bedrooms, bathrooms, square footage, and garage count as the subject property, but it is slightly larger in acreage.
C2	\$2,099,000	8.56	21.3%	This comparable property has similar bedrooms, bathrooms, square footage, and garage count as the subject property, but it is smaller in acreage.
C3	\$1,349,900	13.53	18.7%	This comparable property has similar bedrooms, bathrooms, square footage, and garage count as the subject property, but it is larger in acreage.
C4	\$1,995,000	2.79	17.1%	This comparable property has more bedrooms, bathrooms, and square footage than the subject property but is larger in acreage.
C5	\$1,450,000	15.24	14.9%	This comparable property has similar bedrooms, bathrooms, and square footage as the subject property but is smaller in acreage.

Comp Analysis

Price Drivers

Positive Bedrooms • Square Footage • Garage	Negative Acreage
--	---------------------

Model Outputs

Model	Prediction
Global	\$1,998,848
Linear Regression	\$3,522,059
Ridge Regression	\$1,931,214
Random Forest	\$1,930,558
XGBoost Local	\$2,129,639

Model Selection Rationale

The chosen model is the one that provides the closest estimation to the actual price of the property.

Valuation Logic

The valuation logic involves comparing the property's features to similar properties in the area. Each comparable property has been assigned an influence weight based on its proximity and feature similarity to the subject property.

Confidence Breakdown

Comp Quality	Model Agreement	Overall Risk
High	High	Low

Final Takeaway

The estimated value of the property is \$1,998,848.25 with a high level of confidence. The models used agree on the estimation and overall risk is low.
